WIDGETS AND KPIs ON A POINT OF INTEREST

POInt&Go supports **multi-language sentiment analysis** for user comments, designed to not lose users' interactions and context. In the example above POInt&Go correctly detects positive comments in Catalan, regional language.

CITIES LIST (in 2 months)

Users can start from an **explorable map of the Cities** they can access, having a quick look to the Service Providers active in the area and **how they are performing**. New Cities are added to the map **automatically**.

The background features abstract, organic shapes in shades of purple and green. A large, light purple shape is on the left side, and a smaller, darker purple shape is in the top right corner. In the bottom right corner, there is a green shape with a thin white circle inside it.
